Reading Age 6

Acorns / Solo

from Barrington Stoke

When students don't 'crack' reading first time round, they need brilliant books with age-appropriate content to help them see themselves as readers.

Acorns

Our Acorn Readers bring together the best authors and illustrators in the UK with a range of special features and gorgeous full-colour production.

- There are laughs, chills and thrills, and titles ranging from gentler content for your SEN students to seriously engaging dark horror for those desperate for non-patronising books.
- Every book has scope for wider discussion with free resources from the publisher.
- All the Acorns are striking in how they create storytelling magic with such brevity; they enable readers to share in the pleasure and power of books in a way that transforms, connects and engages.

Solo

Solos are first chapter books with content suitable to the chronological age of 'second chance readers' while the reading level is appropriate to a younger child. The books have carefully calculated character and line spacing and a saturated background tint to offer struggling readers the best chance at cracking the reading code. Real reading, for real results.

- Clear illustrations on every page - often missing from books at this level.
- Off-white paper and a special font and spacing to make the text easier to read.

Sparklers Asian Stories

from Blake Education

Sparklers Asian Stories are high interest, well written, contemporary and often quirky stories of characters set across Asia and the Pacific Rim. The response to Sparklers is always good and it's because of the stories – the characters feel real and that's an important part of their appeal. Kids relate to them, enjoy the stories and then want to read more.

- Students follow characters their own age in their local environments – at school, at home, in the village, visiting local landmarks – so they can observe everyday life in another culture.
- Students explore *How are their lives different to mine? Who works in their families and how? What are THEIR everyday challenges?*
- Each beautifully illustrated book includes photography of the local setting; an illustrated glossary; country map and key country statistics; map of the story's narrative structure and comprehension questions.

Thunderbolts

from Ransom Publishing

With a great use for EAL, Set One books do not have any words, allowing reluctant and struggling readers to concentrate on the narrative. The Set One books are also valuable as starting points for discussion and creative work. Set Two introduces a very limited number of words on each page, with Sets Three and Four offering a further degree of progression. In all cases the texts focus on high frequency vocabulary, with all words being phonically decodable wherever possible.

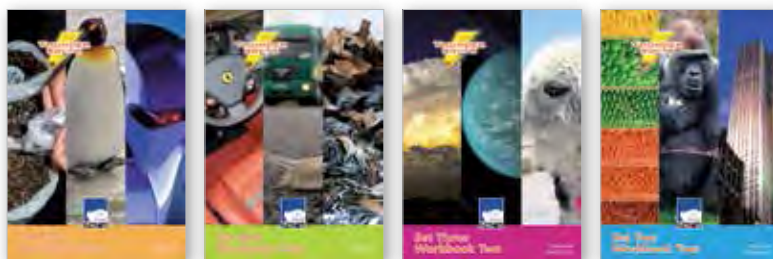

The highest level Thunderbolts books have a reading level that is below that of the popular Trailblazers series.

- As with the Trailblazers series, these books combine a non-fiction section with a fiction story on the same topic.
- Workbooks - all of the Thunderbolts reading books are supported by workbooks containing worksheets specific to each title, as well as detailed teacher's notes and advice on working with the resources.
- The workbook tasks are varied throughout, to allow a degree of progression as they are used.

Trailblazers

from Ransom Publishing

A series for reluctant readers or those struggling to read, particularly boys. The books are beautifully illustrated in full colour, covering topics with high appeal. Each book begins with an illustrated non-fiction section, with an illustrated non-fiction section, followed by a fiction story based on the topic. The fiction story appears in two formats – one with simple texts for poor or reluctant readers; the facing pages contain an illustrated “speech bubble” version of the same story, for those who are just starting to read.

Stacks of Facts

from Barrington Stoke

Some students are resistant to fiction because they like to feel their reading has a purpose, typically 'finding out about stuff'. These readers love these fact-packed titles and, since these are narrative non-fiction or fiction interspersed with fact, students don't realise they're absorbing narrative convention as they go, making the eventual jump into fiction ever easier.

Starstruck

from Ransom Publishing

From footlights to backstage, this series uses the appeal of the performing arts to engage the reluctant reader. Following the format of the Trailblazers books each book includes a non-fiction section, followed by a fiction story on the same topic. These books have strong girl appeal: gorgeous photos and colour illustrations accompany the simple texts, offering a rewarding, informative and definitely unpatronising read.
